**ACCELERATE YOUR HIGH -
VOLUME BUSINESS PRINTING**

P7575

High-speed, high-volume printing to maximize your print productivity

The P7575 from Rex-Rotary is the perfect choice for large departmental workgroups or print room environments where users need professionally finished documents, on demand and in-house. This exceedingly fast black and white laser printer is ideal for these demanding document production environments where high-volume, high-quality output must be delivered in a rapid, robust and totally reliable way.

With an amazing 75 pages per minute (ppm) output, a fast first print speed, and double-sided printing at the same high speed as single sided, the P7575 is exceptionally productive. In addition, it offers high-resolution printing for the utmost in professional quality, the capability to utilize a wide range of media, a variety of finishing options and a user-friendly print driver.

The new Rex-Rotary P7575 is a black and white laser printer that delivers high quality, productivity, reliability and competitive Total Cost of Ownership.

Rex-Rotary's unique approach, links people with knowledge and expertise, combining our wide experience of innovative, document related Products and Software Solutions with our world class Business and Professional Services to deliver the best Total Document Solutions for your business.

Create outstanding black and white documents on a wide range of media

Multiple connectivity options ensure the P7575 will integrate seamlessly into your network

High performance to match your high-volume demands

The extremely fast P7575 has the speed and reliability to match the most demanding environments, whether in the office or print room. Delivering the first page in only 5.5 seconds and printing at an impressive 75 ppm, it has the performance to tackle high-volume projects with ease. It has the built-in capability to print double-sided output as quickly as single sided, producing even the largest documents rapidly and efficiently.

Print high quality, professional looking documents in-house

With a resolution of 1,200dpi this machine delivers the highest quality results. From newsletters and annual reports, to training handouts and spreadsheets, every document can be given instant impact and clarity. The P7575 also gives your documents that final professional touch with superb in-house finishing options including stapling and hole-punching. It offers printing in sizes from A4 up to A3 on a range of weights and output media including transparencies, envelopes and plain and recycled papers.

Ultra-reliable for demanding environments

The P7575 has a standard paper tray that holds an impressive 4,200 sheets and an additional 4,000 sheet Large Capacity Tray option. This massive paper capacity, together with a high toner yield, allows long projects to run with outstanding reliability in demanding printing environments. In addition, its reassuringly high Duty Cycle and ultra-reliable technology reduce the need for user intervention and ensure total peace of mind.

Putting productivity first

To ensure peak performance, the P7575 is equipped with a visual and audible patrol beacon, which uses a combination of light and sound to notify users of printer status, such as paper stocks or toner levels. In addition, Web Image Monitor, which is accessed through a standard web browser interface, allows users in the office or key operators in the print room to monitor paper and toner levels and change network settings directly from their PC, increasing efficiency and productivity.

DeskTopBinder software allows you to easily manage documents from different sources and locations from one integrated tool, improving document access and retrieval and ensuring effective document management and communications.

SmartDeviceMonitor, the network management application, is easy to install and use and puts both users and Network Administrators in complete control of document communications across the network. It enables you to simply and efficiently monitor the operational status of your Ricoh P7575 and other networked output devices.

Simply all the right connections

The network ready P7575 supports all major networks and industry standard printer languages including PCL and Postscript®, ensuring seamless integration into your document environment. Further connectivity options including Wireless LAN are available for organizations using the latest mobile technologies.

Outstanding Software and Services

Complementing the P7575, Ricoh offers a superb range of Software Solutions and Services, which are designed to add value and ensure that our devices continue to operate seamlessly and reliably. Covering all aspects of your business, including document management, network control, consultancy, training and unrivalled support, these innovative products and services offer a tailor made solution to improve productivity, workflow efficiency and cost control throughout your organization.
