**Reach new heights of print quality,
productivity and cost efficiency**

1395+

Top quality and productivity combined with colour and cost efficiency

CopyPrinter 1395+

In any print environment where there is a high volume requirement for quality print material at a low cost per page, the Rex-Rotary 1395+ digital CopyPrinter is the ideal solution.

Easy to use, the 1395+ has a professional 600dpi resolution that produces quality prints every time. To handle those high volume demands with streamlined ease and efficiency, it has a speed of 120 pages per minute and is designed for long running reliability.

The 1395+ also has a wide choice of colour inks and tints to give that extra visual impact to print applications, up to A3 size. Plus, there is an optional controller that allows you to utilise all the exciting desktop publishing possibilities of your PC. Add in a cost per print that becomes lower with the more prints you make, and the Rex-Rotary 1395+ CopyPrinter answers all your high quality, high volume print needs.

You can be certain that all your copy and communication needs will be answered by Rex-Rotary, the name that offers the practical solution.

Highly impressive print quality

The 1395+ delivers outstanding quality, reproducing the finest text and subtle gradations on photographs and illustrations at exceptionally high levels. The secret to the impressive 600dpi resolution is a combination of the 'super sensitive' thermal head and an optional 'high density' ink. These combine to consistently provide superb 600dpi quality, from the first to the very last print of each and every run.

Reliability combined with high volume

With the 1395+, which prints on paper sizes up to A3, you have built-in, long running reliability. That is because the 1395+ is designed with fewer moving parts than conventional printers or copiers. The chance of paper curl whilst printing is also eliminated, as there is no heat involved in the printing process. With a total paper capacity of 1,000 sheets, you have a machine that you can leave with complete confidence to effortlessly handle high volume runs by itself.

Top speed productivity

Long print runs are completed in no time at all with the 1395+. Top print speed is 120 pages per minute, that's a productive rate of 7,200 top quality 600dpi prints every hour. And, with an almost unbelievable first print time of just 25 seconds, the 1395+ leaves ordinary printers behind.

More colour creativity

Imaginative use of colour can make an instant impact. With the 1395+ you have a wide choice of spot colour ink options to create an eye-catching visual appeal. There is also a standard tint mode that increases the power of the 1395+'s palette. Another brilliant innovation is the facility to provide you with a Pantone® ink to match your, or your customer's corporate colour.

Extremely cost effective

Compared to traditional copiers, laser and short run offset printers, the 1395+ offers an exceptionally low reproduction cost per page for such high standard output. Whilst other machines tend to produce at a constant cost per page, regardless of quality, the 1395+'s costs drop dramatically the more pages you print, and the superb 600dpi quality remains consistent throughout the run. That's a cost saving you can count on.

Complete Connectivity

The optional RCP80 controller from Rex-Rotary brings connectivity to your CopyPrinter, enabling high-speed digital printing across your network. With Adobe Postscript 3 as standard, the RCP80 ensures graphic images are accurately processed without delay. Productivity is further enhanced by the addition of SmartNetMonitor, which puts users and administrators in full control of networked document communications.

Full of user friendly features

The 1395+ is so fast and simple to set up, whatever your print demands are. Exchanging an optional colour drum is equally quick and easy; it's all done in a matter of seconds. Another feature you'll appreciate is the ability to print multiple copies on A3 or A4 paper therefore cutting your paper costs. There's also reduction, enlargement and zoom facilities and an optional automatic document feeder to speed up multi-page inputs. And naturally, the 1395+ is also environmentally friendly.

Optional controller allows on-screen design using various colour ink options

120 pages per minute with 600dpi quality

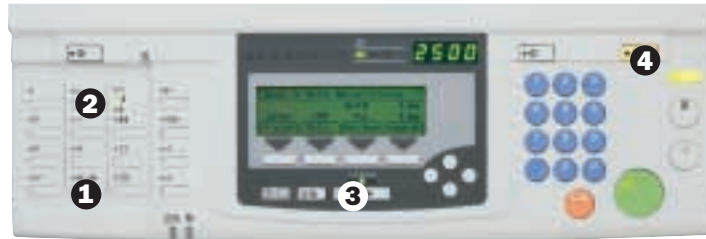

The more prints, the less the cost

1 Book Copy

2 Stamp Function

4 Energy Save Mode

General Specifications

Master & Printing Process	Digital, Press Cylinder System
Original	Book, Sheet
Original Size	Platen Cover: Maximum 305 x 432mm (12" x 17") ADF: Minimum 105 x 128mm (4.1" x 5") Maximum 297 x 864mm (11.7" x 34")
Print Paper Size	Minimum 70 x 148mm (2.8" x 5.8") Maximum 325 x 447mm (12.8" x 17.6")
Print Paper Weight	47-209g/m ²
Print Area	Maximum 290 x 410mm (11.4" x 16.1")
Resolution	600 x 600dpi
Leading Edge Margin	Less than 8mm (0.3")
Image Position Adjustment	Vertical ± 15mm (0.6") Horizontal ± 10mm (0.4")
Image Modes	Letter, Photo, Letter/Photo Auto Separation
Multiple Copy Mode	Combine 2 originals, Quadruple Copy, 2 in 1, 4 in 1, 8 in 1, 16 in 1
Class Mode	9 Grades x 18 Classes Memory, 20 Manual Class
Pre-set Reproduction Ratios	71%, 82%, 87%, 93%, 115%, 122%, 141%
Zoom	50-200% by 1% increments
Directional Magnification	50-200% by 1% increments
First Print Time	Less than 25 seconds (A4)
Printing Speed	60-120ppm (5 settings, 60, 75, 90, 105, 120)
Master Roll Capacity	A4 More than 410 masters per roll A3 More than 255 masters per roll
Ejected Master Capacity	More than 70 sheets of A3 master
Paper Feed Capacity	1,000 sheets (80g/m ² paper)
Paper Delivery Capacity	1,000 sheets (80g/m ² paper)
Power Consumption	Maximum 240W Energy Save 8W
Dimensions (W x D x H)	Set Up 1435 x 700 x 1020mm (56.5" x 27.6" x 40.2") Stored 1405 x 700 x 1020mm (55.3" x 27.6" x 40.2")
Weight	Less than 105kg (231.5lb)
Features	Master Counter, Paper Counter, Auto Magnification Selection, Auto Background Correction, Auto Paper Size Detection, Auto Original Size Detection, Original Storage (Max 8 Pages), Overlay, Stamping, User Tools, Program Mode (9 Jobs), Skip Feed, Quality Stand By/Startup, Security Mode, User Codes(20), Economy Mode, Auto Online (with optional print controller), Double Feed Detection, Job Separation (600 sheets), Auto Paper Size Reduction/Enlargement, Energy Saving Mode, Make Up Functions (with optional editing board)
Colour Inks	Black, High Density Black, Blue, Red, Green, Grey, Brown, Purple, Yellow, Navy, Maroon, Teal, Orange, Violet, Hunter Green, Burgundy, Gold
Options	Auto Document Feeder (50 Sheets), Platen Cover, A3 Colour Drum, Print Controller, Print Interface Kit, Editing Function (for command sheet/graphics design)

Options Specification - Printer Controller RCP80

Type	Embedded Controller
Host	IBM PC AT/Clone Macintosh
Operating System	Win 95/98/ME Win NT4.0/2000 Mac OS 7.0 and above
CPU	233MHz
RAM	32MB (upgradeable to 128MB)
Printer Language	Adobe PostScript Level 3 PCL5e
PC Interface	Centronics
Network Interface	10 Base T/100 Base TX
Network Protocol	EtherTalk, TCP/IP, NetBEUI lpr, NetBIOS over TCP
Software	SmartNetMonitor network utility software
Features	Supports: Image Rotation, Repeat, Combine Originals, Speed Setting, Autocycle, Image Density
